## EXPERIENCE

---

<b>ATTIX APAC - Singapore</b>	<b>Jul 2024 - Jul 2025</b>
<i>Transformative AI solutions for Algorithmic Trading, LLMs &amp; Automotive</i>	
<b>Product Manager</b>	
• Delivered roadmap for MidasAI, AlphaPilot (AI Hedge Funds), QuantHare (AI OMS) & Vittori (Automotive)	
• Led cross-functional teams (UI/UX, data science, engineering) to ship AI-driven product milestones	
• Evaluated trading algorithms (Sharpe/Sortino/drawdown), against client risk profiles for deployment readiness	
• Coordinated TradeGPT LLM development — PRDs, team alignment, & delivery of features/bug fixes	
• Established AI governance frameworks, providing transparency on performance, risks & business impact	
• Drove QuantHare productisation, defining requirements, roadmap & UI/UX for a client-grade PoC	
<b>MICROGAMING ASIA - Singapore</b>	<b>Mar 2020 - Apr 2024</b>
<i>Asian division of the top iGaming &amp; Casino content provider</i>	
<b>Product Manager - Games &amp; Content</b> (May 2022 - Apr 2024)	
• Project Executive (Mar 2020 - May 2021)	
• Owned end-to-end product lifecycle — from concept & requirements through launch, analysis & iteration	
• Doubled product creation speed, accelerating time-to-market across APAC slot portfolio	
• Managed cross-functional teams & vendors to deliver & support new game products	
• Optimised bet-setting & retention frameworks, driving +8% revenue growth & 20% higher uptake	
• Presented at regional seminars/trade shows, showcasing products & analysing performance trends	

<b>3M - Singapore</b>	<b>Mar 2020 - Mar 2021</b>
<b>Junior Project Manager</b>	
• Implemented Jira workflows for clients (Dyson, Adidas, Parkway), improving project visibility	
• Managed invoicing/timesheets for 40-person team across multi-country campaigns	

## PROJECTS

---

- [Motorcycle Risk Prediction API - FastAPI + ML Model Deployment](#)  
Built & deployed a FastAPI ML inference service with validation, reproducible model loading & automated deployment (Render)
- [MTG Portfolio Dashboard – Data Visualisation & Analytics](#)  
Implemented an end-to-end portfolio tracking system with market data ingestion and historical analysis.
